

CFE

FABRICATION SERVICES

CFE Engineers
Asia Pte Ltd

ALWAYS READY

CFE is a leading service provider of engineered platform and steel structural fabrications used throughout the offshore and drilling industry.

We specialise in providing integrated solutions that encompass project management, engineering design, blueprint consultation, worldwide procurement, fabrication, machining, and testing.

Our world-class infrastructure and in-house quality control unit ensure that every aspect of our manufacturing processes is managed efficiently and professionally.

In addition, our seafront location in Singapore provides advantages in acquiring components and raw materials, reduces transportation costs and accelerates delivery times.

TRUSTED GLOBALLY

Specialised Steel Structural Fabrication

Our fabrication facilities are equipped and can meet the most exacting requirements. Our project teams consist of highly-experienced engineers, technicians and skilled craftsmen that are able to design and fabricate large-scale and exotic special equipment.

We are fully committed to providing high-quality products and services to be your one-stop-shop solution.

STRATEGIC FOCUS

Engineered Products

To maximise our value to the industry, we have established tight bonds with companies that manufacture category-best products.

For air hoists and winches, we are the sole distributor locally for Ingersoll Rand, the leading manufacturer

 worldwide for solving the most challenging lifting, pulling, and positioning applications for drilling rigs.

For drilling rig winches, deck winches and chain jacks for FPSOs, we represent Bröhl, famous for  their craftsmanship, innovative system design, and of course, German technology.

It's often said that people's opinions are shaped by the company we keep. We believe we have two of the finest on the planet.

CFE Engineers
Asia Pte Ltd

LEADING EDGE

Precision Engineering

At CFE, we are well known for our significant investments in the latest high-throughput precision machining equipment. Our strategy of combining state-of-the-art equipment with the best trained and most experienced technicians enables us to handle multiple large-scale, fast-track projects efficiently.

We view precision engineering services as an ongoing quest for the balance. There must always be harmony between advanced materials and techniques while at the same time staying perfectly aligned with each customer's needs.

Thus we're always in the process of developing our capabilities to become your preferred choice.

SUPPORT SERVICES

Services

Our service division handles inspection, testing, commissioning, maintenance, recertification, repair and refurbishment of various types of equipment for both onshore and offshore applications.

Our specially-trained inspection and service engineers conduct inspections in accordance with each client's management systems in addition to full compliance with the latest international, industry and regulatory standards.

CFE inspection/certification reports include:

- Inspection reports
- Certificates
- Digital photographs

BEST PRACTICES

CFE is a fully certificated ISO, QA and QC company. This ensures that all of our processes, procedures and documentation are in compliance with the highest standards in the world.

Our operations comply with:

- ISO 9001 Standard
- ISO/TS 29001: 2007 Standard
- OHSAS 18001 Standard
- Quality/HSE Management Systems

In addition, our corporate culture reflects our deep commitment to excellence in all that we do.

Thus, from start to finish, senior management and respective project management teams are involved in each aspect of the planning, implementation, and oversight as each project milestone is accomplished.

OUR BELIEFS

All of us at CFE realise that our success depends upon the passion, know-how, and the happiness of each of our people. We believe that there is a strong link between feeling a sense of personal satisfaction about one's work and the quality of workmanship that will follow.

Thus, we strive to treat each person with the care and respect that they deserve.

HSE

We value our people and the world we live in. So, we provide regularly-scheduled, ongoing programs that cover health, safety, and environmental issues.

Training

Everyone seeks a better life— and the best way is by acquiring new skills and knowledge. We provide intensive international training to our staff.

MILESTONES

CFE Engineers Asia has, in a short period, achieved its prime objective as a preferred service provider of fabrication services in the marine oil & gas industry.

Over the last decade, perhaps the most significant milestones we achieved were to earn DNV ISO 9001:2008, OHSAS 18001 and ISO 14001 DNV accreditations.

Within the past five years, we were very honoured to receive an award as one of Singapore's 50 Fastest Growing Small to Medium Enterprises and an Enterprise 50 Award.

As each day passes into history and as each new milestone is achieved, we remain focused on our main purpose: to deliver the very best conceived and best crafted solutions possible to each of our clients.

WE ALWAYS DELIVER

In a world where businesses around the globe are connected 24/7, costs are high, and time seems to pass by much more quickly than ever before; the business of meeting deadlines has become a far more urgent matter than it was in the not-so-distant past.

Early on, we at CFE made the conscious decision to be at the leading edge in embracing and mastering the new ways that business must be done in the 21st century.

Throughout our company, we have all committed ourselves to being the best in the industry by consistently delivering the very best in quality, in performance and in timeliness.

To become — and stay! — your preferred partner, our companywide mantra is this, "Come rain or shine, we will always deliver!"
